5th Anniversary of PEACE Commemorative Special Edition
The establishment of the PEACE on 2nd October 2018 in Hong Kong SAR of China is to combine all the people who are enthusiastic and support the environment and care for the earth to work hard to curb the deteriorating ecological and environment, also to protect the global environment on which humans depend. We promote the development of a low carbon economy globally, at the same time, promote UN Decade on Ecosystem Restoration and Sustainable Development Goals, as well as global actions advocated by the Paris Climate Agreement.

We advocate the harmony between man and nature is the principle that social, economic, and technological development should follow, and it is also the guarantee of human survival, protecting the earth and protecting the environment is the responsibility of all human beings. There is no national border, race or religion. Individuals or groups concerned with the environment should actively and unite for the common goal.

We support and cope with the United Nations and all government's environmental protection policy and promote the concept of environmental protection with the concept of "energy saving and carbon reduction" to maintain the living environment of Hong Kong citizens, to oppose environmental laws or policies and to supervise the development of the community. Based on the spirit and method of science, formulate relevant countermeasures for sustainable development and assess risks; continuous innovation of science and technology is the driving force for achieving the dual goals of environmental protection and economic development.
CONTRIBUTE TO GLOBAL

2021

The Actor of the United Nations Decade of Ecosystem Restoration 2021-2023

Special Task Force United Nations Decade of Ecosystem Restoration 2021-2023 lead by FAO

2022

Special Consultative Status to Economic & Social Council
UN DECADE ON RESTORATION 2021-2030

PEACE is the Actor of UN Decade on Ecosystem Restoration 2021-2030 since November 2021.

We advocate the harmony between man and nature is the principle that social, economic, and technological development should follow, and it is also the guarantee of human survival, protecting the earth and protecting the environment is the responsibility of all human beings.
WELCOME MESSAGE
This year, we gather to celebrate the 5th anniversary of PEACE, our esteemed organization. This milestone represents a decade of hard work and dedication toward our shared commitment to caring for our planet.

May I express my heartfelt gratitude to everyone who has been part of this incredible journey. Your unwavering support and tireless efforts have shaped PEACE into an organization that promotes sustainable policies and fosters economic growth while prioritizing environmental stewardship.

We have achieved remarkable milestones over the past five years through collaborative initiatives, advocacy campaigns, research projects, and policy recommendations. Together, we have made a tangible impact on local communities and global platforms by raising awareness about pressing environmental issues and driving positive change through innovative solutions.

As we reflect on our progress thus far, let us renew our commitment to tackling climate change head-on. We must strive for sustainable development practices that preserve our planet for future generations.
In light of recent global events emphasizing the urgency for action against Climate Change, PEACE stands at a critical juncture in its history. Our role as advocates for responsible policies is more vital than ever before. Together with governments, businesses, civil society organizations - all stakeholders - let us forge ahead with determination towards creating a greener future.

Looking ahead to the next five years and beyond, let us embrace innovation as an essential tool in achieving sustainability goals.

We can overcome challenges by fostering partnerships that transcend borders and sectors. We can drive transformative change through collaboration's power where economic prosperity aligns with environmental preservation.

I sincerely appreciate our dedicated members, partners, and supporters who have been instrumental in our success. Your unwavering commitment has truly inspired us all.

Today's celebration is about how far we've come and the potential within each of us to shape a better future. Let us continue working towards harmonizing policies and economics with the well-being of our planet.

Thank you for being part of this remarkable journey. Happy 5th anniversary to PEACE!

CHANASNUN KAJORNPHUWAPONG
CONGRATULATORY MESSAGE
Warm greetings to all of PEACE’s members on this momentous occasion as we celebrate the 5th anniversary of PEACE. It is with great pleasure and pride that I extend my heartfelt congratulations to every one of you on reaching this significant milestone.

As a former Prime Minister of Thailand, I have witnessed the incredible work PEACE has accomplished over the past five years. Your dedication to promoting sustainable policies while fostering economic growth has been commendable. By prioritizing environmental stewardship, you have set an example for organizations worldwide.

As we celebrate this 5th-anniversary milestone together, let us reflect on our achievements thus far while acknowledging the work ahead. The next five years will be crucial in shaping our collective future as we strive toward a greener world where economic prosperity goes hand in hand with environmental preservation.

I am confident that under the capable leadership of Mr.Nine (The President of PEACE) and the unwavering dedication of PEACE’s members, PEACE will continue making significant strides toward achieving its goals.

I extend my warmest wishes for continued success and growth on this joyous occasion. May PEACE continue to be a beacon of hope and a catalyst for positive change in our global community. Thank you for your tireless efforts, and congratulations once again on this remarkable milestone.

CHAVALIT YONGCHAIYUDH
On behalf of my entire organization Policy & Economic Alliance Caring of Earth (PEACE), I extend my heartiest gratitude to everyone that support us for completing 5 glorious years of success.

I want to thank you for your dedication and commitment to PEACE. Your work is commendable, and we could not have come this far without the loyal support and hard work of each member of the PEACE.

I remember the days when the organisation had just begun its operations, we are at zero ground. The amount of toil and hard work that all of us together have put in to see this organisation grow from being accredited as the Actor for UN Decade on Ecosystem Restoration 2021-2030, then to the highest status as Special Consultative Status to the UN Economic and Social Council for a non-governmental organisation is just indescribable. All the ups and downs we have faced as a team, we are at the top now. All the efforts and patience have now finally grown fruits and I am extremely happy and proud to some extent.

I wish our PEACE organisation all the success for many more years to come.

Congratulation PEACE!

TEE CHING SENG
I hope you are in good health and celebrating for PEACE organisation tremendous success in contributing to global sustainable development. I am glad and honour to be part of your team and I have been an active part of the journey of growth of the PEACE, I wanted to show our happiness and support to our organisation on achieving this milestone.

Congratulations on PEACE 5th anniversary. Wishing PEACE organisation continuous success and prosperity.

Yerevan, Armenia

Best Regards

Dr. Armen Arzumanhyan
I am deeply honored to be invited to attend the 5th annual meeting of The Policy & Economic Alliance Caring of Earth (PEACE), together with the parallel event, the 4th Future Economic Cooperation Business Forum (FEC Business Forum) and am delighted to participate.

During the past 5 years, PEACE has endeavored vigorously to unite people from all corners of the globe, who care for the earth, concern environmental protection, and work actively against the deteriorating ecological environment of which all livings are involved. Its contribution to environment is well evidenced by growing members joining the PEACE and various relevant events being given. FEC Business Forum being the one.

FEC Business Forum is a timely event that provides platform for the business field to communicate how to cope with climate challenges facing now and design plans for the future. Witnessing the devastating natural disasters brought by climate change, it is all urgent that we map out business policies that cope with such challenges cooperative and coordinately.

As the chairperson of the Taipei Chamber of Commerce, I am well aware of the responsibilities on me to assist various industries in Taipei City to upgrade and transform their business discipline. Therefore, since I took office, I have always regarded ESG norms as an important part of industrial development. In addition to providing relevant courses, I also plan practical carbon inventory operations, hoping that industrial development will also strengthen the social responsibility of environmental protection.

Finally, I wish this annual meeting will attract more people's attention to world environmental issues and active actions be taken. You have my esteemed admiration for your efforts. I wish the annual meeting and forum success.

Wu Fa Tien
It is my profound honor and privilege to take this opportunity to send my highest and warmest congratulations to Policy & Economic Alliance Caring of Earth (PEACE) for establishment of Fifth Anniversary, which reflects a historical milestone of any international organization. In the very first stage of PEACE, I was also invited by Chairman Chanasnun K. and Dr. Tee C.S. for joining various activities of PEACE held worldwide to contribute knowledge and experience to international society; and then, I was honor to act as Director of Virtual Integrated Business Center (VIBC) for building up a cooperative platform for better world. Since then, I worked with experts globally from time to time by PEACE virtual platform for discussion and creation new models for better world, especially in the period of COVID-19.

Having brainstorming in depth, we eventually created the very first application, named Walking for Rice, on combination walking for health and gamification for Sustainable Development Goals (SDGs) of United Nations. It has proved PEACE carries a global capability to converge global resources and to contribute international society for new people, new community, and new technology. In the future, I believe that PEACE will have strong presence in the global stage to gather more talents and resources for building up a better world, which is not only for itself but also for the needs in the world.

I also strong believe that PEACE will act as a leading nongovernmental organization under the leadership of Chairman Chanasnun K. and Dr. Tee C.S. in international society and will have another greatest achievement in SDGs and ESG in the next 5 years.
Year 2023 is an important year for PEACE and to have a 5th anniversary conference in Taipei, which entitled the main theme as "Shield up the Healing Power for the World, People, Cities, and Earth".

It follows the philosophy of the World and organization. We hope the World may adopt people’s knowledge and experience to overcome challenges from nature and society, such as climate change, rampant deforestation, human diseases, and so on. PEACE is a very role to play as global platform to invite experts and professionals for join it for sustainability and resilience.

Again, taking this opportunity I sincerely would like to pay my highest respect to PEACE to its remarkable contributions and achievements in global society. PEACE inspires people and community for sustainability and resilience in the World.

Dr. Chao-Jen Huang (Prof)
The Policy & Economic Alliance Caring of Earth (PEACE) pleased to invite you to attend the 4th Future Economy Collaboration Business Forum (FEC Business Forum) in conjunction with the celebration of the 5th establishment of PEACE.

The 4th FEC Business Forum will take place in Taipei city from 23rd to 27th October 2023. As reflected in the title “Shield up the Healing Power for the World - People, Cities, and Earth”, the core theme of this year's forum was Healing Earth, Cities, People's Life and Health Resilience with Plants. With the gifts of nature - forests, plants and crops, Build a global Shield of Healing Power – let the earth and human beings have PEACE of Mind.
The FEC Business Forum begin in 2019 brings together business leaders from Asia and Africa who share the goal of strengthening collaboration in collaborative economy, trade and investment relations in Asia. The forum is an ideal platform to engage with political & business leaders from two regions and communicate to them concrete ideas on how to tackle today’s and tomorrow’s challenges and boost economic growth, development and job creation in Asia and Africa continent.

Our agenda are to unleash the scientifically quantified healing power of nature and plants, use local plants and natural resources in each region to form a healing shield for the environment, the city and the health of residents, achieving the purpose of PEACE to solve intricate problems in the simplest way and through the tandem of the achievements of various places, form a global healing power in the happiest way.

Visit Yilan County or university

Yilan City is in Yilan County, in northeastern Taiwan. It’s set on the Lanyang Plain, north of the Lanyang River, with a bird sanctuary nearby. The 19th-century Zhao-Ying Temple features ornate stone and wood sculptures. Southeast, in Wujie Township, the National Center for Traditional Arts is dedicated to music and opera. The city serves as a gateway to volcanic Guishan Island, off the east coast.
DAY 3
25th October 2023 (Tuesday) Taipei

Visit AgriGaia, EcoFarm and Fo Guang Shan Monastery
Visit National Palace Museum and local culture.
Heal the resilience of earth, city, and human life and health with plants

People, Cities, and Earth

**New people** – turn everyone immediately into happier, healthier, resilient and braver to embrace challenge while relieving burden from family, society, and government.

**New Ecology** - restore healthier and natural environment that produces new platform in collaborative and smart ways to protect people’s livelihood and business opportunities.

**New Digitalization** - use digital technologies in designing gamification and in data-driven context covering issues in stakeholders globally for PostCOVID-19 response.

**New Wisdom** - adopt plants as natural forests and trees to cultivate peace of soul and mind among people to realize a fruitful and self-satisfactory life.

2. Exploring industrial and digital opportunities, transformation to a new cooperative model in hybrid lifestyle and behavior (on site and offline, embracing natural environment).

3. The Platform on new knowledge-based Peace of Mind of people and New Business model for society, which is driven by Natural gifts as plants, forest, and farms.

4. Digital Economy and New Value Chain Creation help stakeholders leverage resources to be agile and resilient in face of new disruption as cross-border conflicts in global environment and to create the new sustainable practice and strategy for future health and harmony.
